

Antonin Jech

Senior Frontend Developer

React · Typescript · Vue · UX

EXPERIENCE

Fullstack developer

Digitalwerk Gmbh

Jun 2023 - present

Building enterprise web application for major automotive brands using the GRAND stack (GraphQL, React, Apollo, Neo4j, Node.js). Performing thorough code reviews, writing and updating E2E/Unit tests (Jest/Cypress). Taking part in retros and sprint plannings, giving practical input on estimations and tech decisions.

Frontend developer

Audaris Gmbh

Dec 2021 - Feb 2023

Developed two production web apps for car-dealer networks using Vue.js and Typescript. Collaborated closely with designers to translate Figma concepts into scalable, responsive UI components. Refactored large portions of legacy code into clean, typed components, cutting technical debt and speeding up feature development.

Frontend developer & UX/UI designer

Freelance

Sep 2019 - Dec 2021

Built websites end-to-end using React and Typescript. Created UX/UI designs and translated them into working components. Connected websites to headless CMS (Strapi, ...). Long-term maintenance.

Senior Digital Project Manager / Front-end developer

Havas Worldwide Prague

Jan 2017 - Sep 2019

Delivered digital projects for global clients (BMW Motorsport, JDE, Phillips, Bayer, Sanofi). Combined project management with hands-on JavaScript development. Supported leadership on technology strategy and helped establish digital team processes.
